Tabs:

Streamline & Simplify Navigation

Tabs cut down on scrolling, letting users find what they need quickly. By organizing content into sections, tabs make your homepage cleaner and more intuitive.

Scrum	Kanban	FDD	LSD
-------	--------	-----	-----

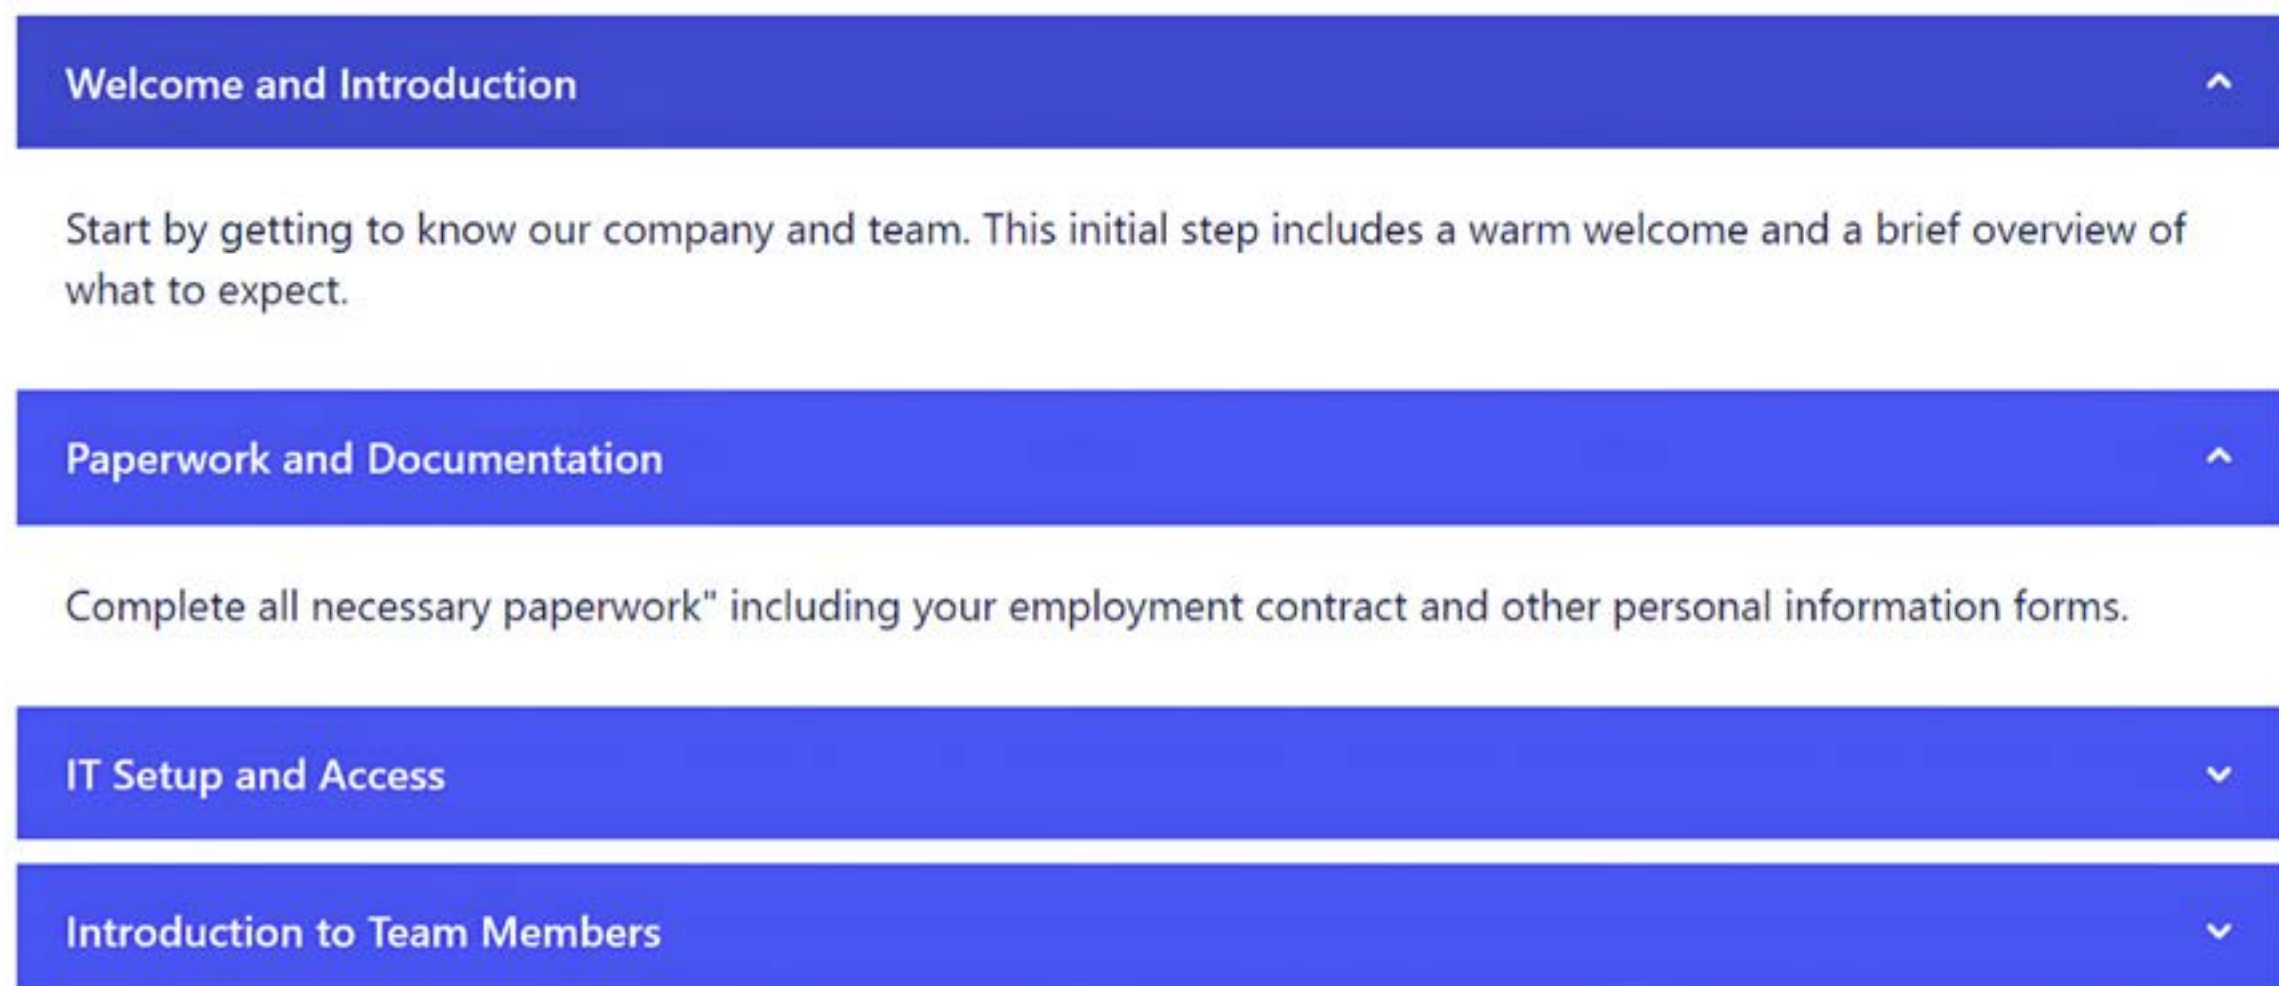

Scrum is a management framework that teams use to self-organize tasks and work towards a common goal. It is a framework within which people can address complex adaptive problems while the productivity and creativity of delivering products are at the highest possible value. Scrum is a management framework that teams use to self-organize and work towards a common goal.

- Scrum allows us to develop products of the highest value while making sure that we maintain creativity and productivity.
- The iterative and incremental approach used in scrum allows the teams to adapt to the changing requirements.

Expanders:

Organize Content & Save Space

With Expanders, users can view detailed info only when they want it. This keeps your homepage neat and lets users dive in when needed.

Welcome and Introduction 

Start by getting to know our company and team. This initial step includes a warm welcome and a brief overview of what to expect.

Paperwork and Documentation 

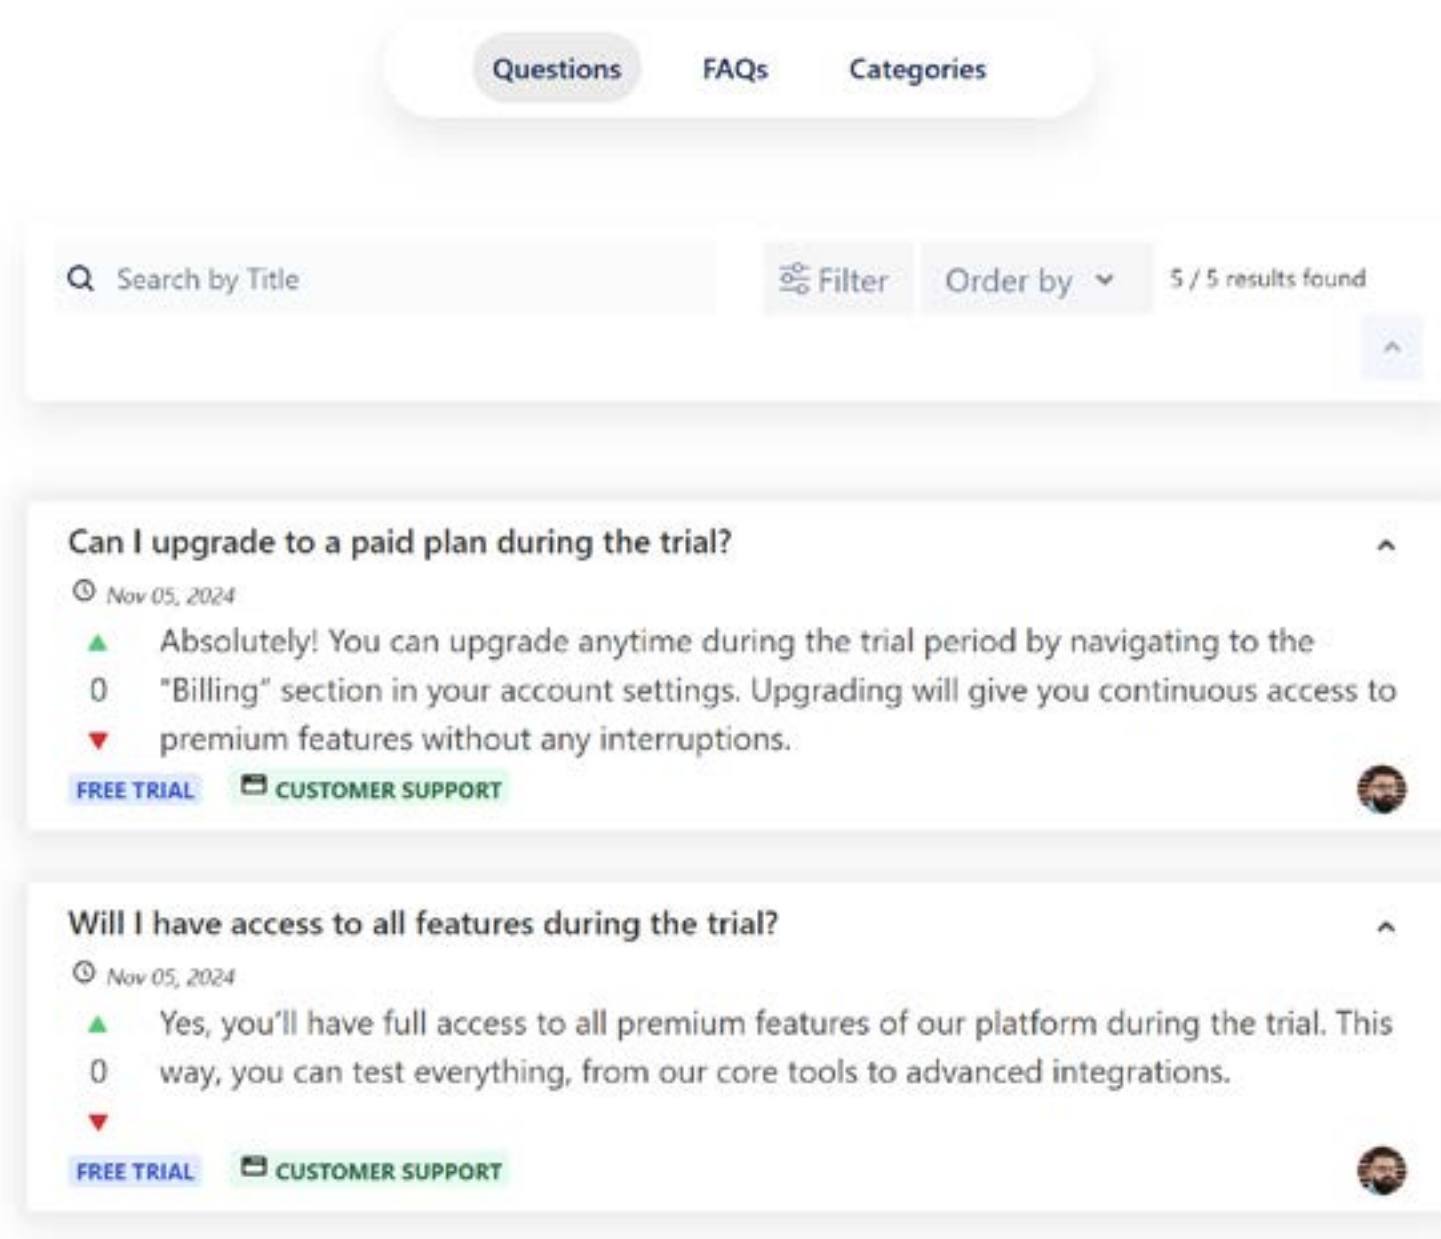

Complete all necessary paperwork" including your employment contract and other personal information forms.

IT Setup and Access 

Introduction to Team Members 

FAQ Listing: FAQs at Your Fingertips

Display FAQs organized by spaces or categories for quick reference. This keeps important answers accessible right from the homepage.

Term Definition Card: Quick Access to Terms

Instant access to key terms with clear definitions and metadata. Perfect for navigating technical or company-specific jargon and keeping everyone in the loop.

LANG	TERMS	DEFINITION	SYNONYMS	ABBREVIATIONS	LABELS
	Objectives and Key Results	A goal-setting framework that helps new hires align their goals with the team's objectives and the company's broader mission. OKRs [...]		OKR	

Ideation List: Spotlight Ideas & Drive Innovation

Showcase ideas directly on the homepage for visibility and easy access. Ideal for spaces focused on creativity and team contributions.

The screenshot displays an 'Ideation List' interface. At the top, there are tabs for 'Timeline' and 'List', with 'List' selected. Below the tabs are two filter buttons: 'Status: all' and 'Creation period'. The list contains four items, each with a status label, a title, an author, a date, and engagement metrics (views, comments, likes).

Status	Title	Author	Date	Views	Comments	Likes
IMPLEMENTED	Use drawers instead of dialog boxes	Seth berg	23-12-2021	15	19	7
NEW	Focus on instant feedback with in app feedback	David	14-12-2021	48	15	20
UNDERSTAND	Re-work buttons design	Isabel	02-12-2021	36	8	12
BACKLOG	Include a sidebar for quick access					

At the bottom of the list, there is a pagination control showing '1' and 'Next'.

Content Status List: Track & Share Content Progress

Display content by status, creator, or other filters. Ideal for spaces focused on content creation and publishing.

Name	Status	Marked By
